

CQG revised-submission checklist

Manuscript: CQG-116364 Prepared: 21 July 2026

Author response

- ☒ Point-by-point response addresses every substantive referee comment.
- ☒ Each response states the change and gives marked-manuscript page/line locations.
- ☐ Confirm whether the submission uses double-anonymous review; anonymize if required.
- ☐ Upload on Author Centre Step 1, “View and Respond to Decision Letter.”

File: `papers/revision/CQG_RESPONSE_TO_REFEREES.pdf`

Highlighted PDF

- ☒ PDF format.
- ☒ Revised text is blue and the manuscript is line numbered.
- ☒ Figures and tables are included.
- ☒ All 27 pages were visually inspected after the final compile; no clipped tables, broken paths, blank pages, or unreadable legends were found.
- ☐ Confirm anonymization requirements.
- ☐ Designate “Complete Document for Review (PDF Only)” during upload.

File: `papers/manuscript/hybrid_qnm_research_paper_marked.pdf`

Clean source file

- ☒ TeX source is clean when built without the marked-revision macro.
- ☒ Full author name, affiliation, ORCID, corresponding-author marker, and email are present.
- ☒ Funding, competing-interest, data-availability, code-availability, and author-contribution statements are present.
- ☒ Tables, captions, and equations are editable TeX.
- ☒ Tables do not rely on colored text.
- ☒ No ethics statement is required for this computational study.
- ☐ Compare the author name, affiliation, ORCID, and email with the Author Centre fields.

File: `papers/manuscript/hybrid_qnm_research_paper.tex`

Additional source files

- ☒ High-resolution figure files are present under `papers/manuscript/figures/`.
- ☒ Reproduction scripts, configuration, and generated tables are present.
- ☐ Upload relevant TeX dependencies and figures on Step 3 with designation “Source Files.”

Clean PDF

- ☒ Built from the clean revised TeX source.
- ☒ Unmarked and without line numbers.
- ☒ Compiled twice without LaTeX warnings or unresolved references.
- ☒ Re-ran every documented generator and all tests from a fresh sparse clone with no pre-existing `outputs/` directory.

- ☐ Upload with designation “Source Files.”

File: `papers/manuscript/hybrid_qnm_research_paper.pdf`

Supplementary material

- ☒ No separate publication-as-is supplementary file is currently required.
- ☐ Confirm this choice in the Author Centre.

Final authenticated checks

- ☐ Verify the 3 September 2026 deadline in the authenticated Author Centre.
- ☐ Confirm all submission metadata and file designations.
- ☒ Create local `cqg-r1` and `cqg-major-revision-r1` tags at the exact final-preflight commit.
- ☒ Record the source commit used for clean regeneration in `run_metadata.json`; the annotated release tag resolves the final artifact commit.
- ☐ Push the release tags only after author approval.
